Project Title: REMOVAL SUPPORT TEAM 3

Description: This Specialized Labor TDD allows RST3 \$33,330.00 for the services of a Certified Health Physicist in support of the Removal Assessment being conducted at the Niagara Falls Boulevard Site under TDD No. TO-0007-0011. The CHP support is being brought in to validate the radiological parameter analytical results for the soil and rinsate blank data collected in March 2016 as part of the Removal Assessment of the Site which were submitted to the RST 3-procured laboratory (Pace Analytical). The following samples will be validated by the Weston CHP:

118 Soil  
3 Rinsate Blanks  
121 Total

The validation of these samples has been delayed due to the priority being placed on completing the CRU radiological validation first. It is estimated that 303 hours will be needed to complete the validation. The detailed cost breakdown associated with this specialized labor request can be found in the attached document. The total cost for the CHP support for the Niagara Falls Boulevard Site is \$33,330.00.
